About Me

I am a passionate full-stack developer dedicated to building high-performance web applications. With expertise in React.js, Node.js, and Firebase, I enjoy creating seamless user experiences, optimizing application performance, and integrating APIs. I continually explore new technologies, driven by a commitment to innovation and excellence.

Skills & Technologies

React.js | JavaScript | HTML | Bootstrap | CSS | Tailwind CSS | Node.js | Express.js | Firebase | MongoDB | API Integration | Git/GitHub | Deployment | Responsive Design | UI/UX Principle

Projects

Evangadi Forum <https://evangadiforum.ziyintech.com/>

- Built a Q&A forum with a React frontend and a Node.js/Express backend, incorporating user authentication with JWT, post creation, and comment functionalities.

Netflix Clone <https://netflxclonebyzyn.netlify.app/>

- Developed a Netflix-style movie browsing experience by integrating the TMDB API with React.js and Firebase.

Amazon Clone <https://amazonclonzyn.netlify.app/>

- Developed an e-commerce platform similar to Amazon using React.js, incorporating key functionalities including user authentication, cart management, and payment processing.

Work Experience

Freelance Full-Stack Developer

- Designed and deployed full-stack applications using React and Firebase
- Integrated third-party APIs and improved application performance.
- Collaborated with clients to develop user-centered solutions.

Education & Certifications

- **Evangadi Network** – Full-Stack Web Development Certificate
- **Udacity** – Programming Fundamentals
