About Me

I am a passionate full-stack developer dedicated to building high-performance web applications. With expertise in React.js, Node.js, and Firebase, I enjoy creating seamless user experiences, optimizing application performance, and integrating APIs. I am constantly exploring new technologies, driven by a commitment to innovation and excellence.

Skills & Technologies

React.js | JavaScript | HTML | Bootstrap | CSS | Tailwind CSS | Node.js | Express.js | Firebase | MongoDB | API Integration | Git/GitHub | Deployment | Responsive Design | UI/UX Principle

Projects

Netflix Clone [Live Demo]

- Developed a Netflix-style movie browsing experience by integrating the TMDB API with React.js and Firebase.

Amazon Clone using React [Live Demo]

- Developed an e-commerce platform similar to Amazon using React.js, incorporating key functionalities including user authentication, cart management, and payment processing.

Evangadi Forum [Live Demo]

- Built a Q&A forum with a React frontend and a Node.js/Express backend, incorporating user authentication with JWT, post creation, and comment functionalities.

Work Experience

Freelance Full-Stack Developer (2024 - Present)

- Designed and deployed 3+ full-stack applications using React and Firebase
- Integrated third-party APIs and improved application performance.
- Collaborated with clients to develop user-centered solutions.

Education & Certifications

- **Evangadi Network** – Full-Stack Web Development Certificate
- **Udacity** – Programming Fundamentals
